

SPAIN'S FLEET NOW LOCATED

It Is At Curacao Island.

SAMPSON ON THE MOVE

It Looks Like a Race for Havana.

A BIG BATTLE IN PROSPECT

The Spanish Admiral Occupies a Position in Which He May Intercept the Oregon or Make a Dash for Havana—A Collision Almost Sure to Occur Within Three Days—The Charleston to Sail for Manila Today—Schley's Squadron Hurrying to the Antilles.

WASHINGTON, May 14.—At a late hour tonight officials of the navy department stated that they had received no information of Admiral Sampson's fleet beyond the Associated Press dispatches announcing its arrival at Fort-Plata. The latter is a small seaport on the North Dominican coast. The French cable line runs through this port and also runs down to Curacao where the Spaniards were sighted. Admiral Sampson probably will put in at Cape Haytien and it is from there the first official report from him is expected. From Curacao to Fort-Plata is a straight line, distance about 500 miles, though going through the Mona Passage, and circling around the central part of the North Dominican coast to Fort-Plata it would probably be about six hundred miles. This indicates the stretch separating the two fleets. Since last heard from Admiral Sampson has moved a distance of between 250 and 300 miles. From Fort-Plata to Havana, in which direction Admiral Sampson is now going, is 700 miles. The Spanish fleet is now approximately based on a straight line calculation about 1,200 miles from Havana, to reach which, however she would have to go through the windward passage and risk a battle with Sampson's fleet.

RACE FOR HAVANA.

The Spanish Admiral May Run There for Shelter.

CHICAGO, May 14.—A special to the Journal from Washington says: "An important attaché of the bureau of navigation appeared before the naval board of war today with a convincing argument touching the strategic phase of the situation, so far as it relates to the probable movement of the Spanish fleet. 'Admiral Cervera,' he insisted, 'knows that an overwhelming force of American ships awaits him at San Juan. His only hope of defeating the United States lies in his ability to reach Havana and place himself under the protection of the Havana fortifications. With the start he raised anchor in the harbor before Schley heads him off. If my opinion prove correct, we will have a repetition of the battle of Manila, and that, too, on a larger and grander scale. I do not believe Cervera will take the risk of putting into Cienfuegos. He will be bottled up there. The land batteries on his point have been ruined.'"

WASHINGTON, May 14.—Definite official information reached the authorities here late this afternoon that the Spanish squadron has been sighted off the island of Curacao, one of the Dutch West Indies, lying off the coast of Venezuela. This information was regarded as of vital importance, as it not only fixed the position of the enemy, but disclosed the purpose of the Spanish admiral to make his way through the Caribbean, probably to Cuba. The island of Curacao was originally Spanish and is peopled mainly by descendants of Spaniards, though it is now one of

the Dutch possessions. The Spanish admiral's course was also influenced by the fact that the French cable starting from Curacao, Venezuela, touched at the island of Curacao, thence proceeds north-westward through the Caribbean to Hayti, with spurs running east and west to Porto Rico and Cuba, respectively. He is thus enabled to get in touch from Curacao with the Spanish authorities in Cuba and Porto Rico and through them directly with the Spanish admiral at Madrid. No immediate battle with Admiral Sampson's fleet is expected and the Spaniards seem to have succeeded in passing south of the American fleet and are now well to the westward of it. As the enemy is in reach of the cable, the navy department regards it as of the most vital concern that the whereabouts of the American ships should not be made known during the next few days.

HIDE AND SEEK.
Thus far they have felt handicapped by the fact that the Spanish admiral knew the location of our ships while we were in doubt as to the locality of his ships. The officials here regard it as essential during the next few days to reverse this condition, so that the Spanish admiral will be moving in the dark while our officers will be posted as to his movements through the Caribbean. The department doubtless is informed as to the whereabouts of Admiral Sampson's squadron, but it does not seem fit to give any information on the subject and the same rigid silence prevails as to the whereabouts and destination of Commodore Schley's flying squadron. The game has reached such a critical stage that premature publication as to the whereabouts of our ships might cause inestimable loss and failure of the present plans. In this respect the maneuver of the Spanish fleet is a relief to the naval officials here, as it tends to show the safety of the battleship Oregon. She is proceeding from the north coast of South America to join Sampson's fleet and is somewhere in the neighborhood of Martinique.

THE ORIGIN.
Had the Spanish squadron remained at that point there would have been serious danger that the Oregon would have been intercepted; now, however, she is well out of the way of the Spaniards so long as she follows the usual route. It is not to be supposed, however, that the navy department with a knowledge of the whereabouts of the Spanish fleet, is going to allow any of its hard-worked little cruisers and gunboats engaged in blockading duty on the Cuban coast to fall victims to the huge Spanish frigates. Their commanders will be promptly advised of the approach of the Spaniards and it may be set down as sure that unless the department is satisfied that Sampson or Schley can head off and crush the Spanish fleet, the Cuban blockade vessels will be given permission to take care of themselves and get out of harm's way.

NO BEEF CAMPAIGN.
The war department shows no signs of relaxing in its war preparations, but it seems to be making ready for hostilities on the theory that they are not to last a long time. Thus bids were opened today for supplying to the government a very large number of armor-plating shells of the largest caliber, such as are used almost entirely by coast-defense guns in attacking or repelling heavy iron-clad ships. Another transport was chartered today at New York, indicating that the move of the army upon Cuba is not to be long delayed, else the government would not go to the needless expense of chartering the boat immediately. Two of the big tugs bought by the navy from private parties were christened today, the Fortescue becoming the "Tacoma" and the William H. Brown becoming the "Piscataway."

The naval register promises to include some old names, for only recently the pretty yacht Fortescue was rebaptized by the mouth name of Unconquered.

PARIS AND MADRID.

Some Side Lights on the Present War.

PARIS, May 14.—The Temps this evening published the following dispatch from Madrid: "The successes achieved by the Spanish troops against the American landing parties in Cuba and the insignificant result of the bombardment of San Juan de Porto Rico, have strengthened the feeling here in favor of prolonging the war in the Antilles and Philippines. It is believed Admiral Cervera's squadron will also as soon as it has picked up its dispatch boats and torpedo boats off Martinique, pursue a cruise into Cuban waters and purchase even further."

The French newspapers unanimously condemn the speech delivered by Mr. Jose Chamberlain, the British secretary of state for the colonies at Birmingham last night and deny there is any probability of a war between Great Britain and France.

The Temps says the establishment of an Anglo-American alliance is a symptom to which too much attention cannot be given, but it is certainly a German alliance which the British cabinet has immediately in view.

The République Française terms Mr. Chamberlain a "wild brawler."

THE CHARLESTON
Will Probably Leave for Manila This Morning.
SAN FRANCISCO, May 14.—The cruiser Charleston is ready to depart for Manila. It is expected that the navy pay office that the cruiser will leave early tomorrow morning. Everything is in readiness for the trip to Manila, as the stores from the east have been received and stored. The Charleston will stop at Honolulu for coal. It is expected that the trip to the Philippines will occupy about twenty days. Three

hundred sailors and marines to reinforce Admiral Dewey's fleet will go with the vessel.

It is unofficially stated that the steamer City of Peking, will sail from this city next Thursday and that she will carry 1,000 soldiers and 600 tons of ammunition. The Chinese crew of the City of Peking struck this morning and notified their superiors that they would not take the trip to Manila, being afraid of torture at the hands of the being organized and will be ready to go with the ship when sailing orders have been received.

A battalion of Washington volunteers is expected to arrive here on the steamer Senator tonight, and the 1st Kansas, the 1st Colorado and the 2nd Minnesota volunteers are expected to arrive early next week. Preparations are being made for their reception and the quartermaster's department is arranging the men with all the necessities of soldiers' life.

THE FAULT WAS HERE.

Sister of the Fairly Boys Makes a Statement.

[From the San Francisco Examiner.]
SAN FRANCISCO, May 12, 1898.
Sir: In explanation of the conduct of P. G. and Charles Farley of Fresno, who refused to take the oath of allegiance when called upon to do so after having volunteered for service in the war now waging between this country and Spain, I, their loving and lovable sister, desire to make a statement in extenuation of their course.
The blame is heaped upon them, when I alone am responsible for what the world will term disgrace. I came to San Francisco last Monday as a delegate to the Republican Assembly, now in session in your city. That evening I met my two brothers and on my behalf invited them not to go to war. They refused to recede from the stand they had taken, and I left them in despair. Crazed with grief I renewed my appeal on Tuesday, and that evening drew from them the coveted promise that they would not take the oath.
It is I, and I alone, who am to blame. Love prompted my appeal, and for sister's sake it was granted. I was blind to the consequences of what I asked. I knew it now, but did not know it then. I was the coward, not they, and ask that you permit me to inform the world.
Respectfully yours,
MRS. J. C. LAZIER,
Gonzales, Cal.

THE PRIMARIES.

Action of the Republican Committee.

Convention Delegates Limited to One Proxy—Endorse Republican League Clubs.

The Republican county central committee met yesterday afternoon in A. M. Dry's office. There was a good attendance of committeemen from various parts of the county and also a large number of citizens. The committee was called to order by George W. Jones, president, and in the absence of the secretary, John C. Moore was made secretary pro tem. G. Scribner, formerly secretary, has left the country, having located in New Mexico.

The candidates on the committee were called as follows: George Casagrande vice W. A. Conn; M. B. Harris vice G. Scribner; John Redfield vice G. L. Traher. Mr. Harris was elected secretary for the remainder of Mr. Scribner's term.

The matter of holding the party primaries and convention came up for consideration. The primaries were set for June 10th, and the convention for June 20th. The call for the convention was drafted and election officers for the primaries were selected. The committee concluded that the number of proxies that any one delegate to the convention may hold. After some discussion it was decided to be in the interest of the party to limit the number to one proxy to each delegate, thereby preventing any massing of votes into few hands.

Under the appointment there will be 108 delegates to the convention. This allows one delegate for every twelve votes cast for McKinley in Fresno county at the last election.

The committee was informed of the proposed organization of a Republican League Club in this city. A meeting will be held in the City Hall for this purpose on next Tuesday evening. The committee favors the plan and resolved to extend its fullest encouragement to the club, and with such object in view invites all Republicans to attend the meeting on Tuesday evening. Several such clubs have already been formed in the San Joaquin valley.

Athletic Club Meeting.

At a meeting of the Athletic Club last night sixteen members of Company C, who are also members of the club, were exempted from the payment of dues while serving in the army. It was decided to match George Allen with Billy Gallagher on June 1st. The following named new members were elected: C. P. Marcena, J. Petty, J. H. Harris, John J. Gloria, Col. K. A. Trevelyan, A. E. Sultans, Dan House and Reggie Harmon.

Ficster-Bray.

Frank Ficster and Mrs. Belle Bray were married last evening by Rev. Edward Eccleston. The ceremony took place at the pastor's residence at 8:30 o'clock. Only a few intimate friends and relatives were present.

Captain E. G. Veelen, who arrived from San Francisco last evening to take charge of the local volunteer barracks, was injured last night by stepping off the porch in the rear of the hall. He fell, striking his head on the ground, and was unconscious for some time. It is not thought that he is seriously injured.

IS GERMANY A FRIEND OR FOE?

The "Upper Classes" Are Hostile.

Loss of Trade a Leading Factor.

German Newspapers Talking of Spanish Bankruptcy—Damage Claims Contemplated.

(Copyrighted 1898 by Associated Press.)
BERLIN, May 14.—While there has been a marked change in the comments of the anti-American press of Germany, there has been no change in the opinion of the people, which continues to be most hostile to the United States, especially among the upper classes.
The exporters who are greatly perturbed at the serious losses which have already resulted from the anti-American tone of the press, which losses are reported today to have already amounted to several million marks, and as they threaten to be followed by a permanent transfer of orders to a friendlier nation, are making strenuous efforts to curb the newspapers. The semi-official communications made to the government of Germany protesting that Germany is friendly to America, may be accorded due recognition in government circles, but indifference toward the United States means loss of trade.

Barnum Von Jadow, the minister of foreign affairs, has reiterated to the United States Ambassador White, Germany's intention to observe neutrality during the war. He explained that the absence of a formal declaration on the part of Germany was simply due to the fact that Germany is not in the habit of making such declarations, even in the case of wars which are more important to her interests than the present, like the Russo-Turkish and Chinese-Japanese wars.

The newspapers here are discussing the probability of national Spanish bankruptcy. The Spanish minister's attitude toward the United States, and the fact that Germany is not in the habit of making such declarations, even in the case of wars which are more important to her interests than the present, like the Russo-Turkish and Chinese-Japanese wars.

The officials of the German foreign office are watching events in the Philippine Islands in the closest manner possible. German subjects at Manila have already filed claims for damages against the United States, but the foreign office here says they must await the conclusion of the war before any thing can be done in the matter. It is said, however, that the German admiral commanding in the far east has been empowered in case of riot at Manila, to land troops to protect the German consulate and the German residents of that place.

ANNUAL RE-UNION

Confederate Veterans' Picnic Yesterday.

Those Who Wore the Gray Spent the Day at the Fair Grounds.

The annual re-union and picnic of the ex-Confederate veterans of this county was held yesterday at the fair grounds. Several hundred persons—old soldiers and their wives, children and friends—were present to participate in the festivities. A number of Union veterans were present, and many war time reminiscences were related.

An impromptu musical and literary program was rendered as the affair was to be in the nature of a picnic, and a display of wit and wisdom. There were no long speeches to tire the "vets" and the time was passed pleasantly. Several short speeches were made during the forenoon and the remarks by P. D. Edwards and General Kittell were received with enthusiasm.

Judge Edwards' sentiments were expressed in a terse epigrammatic style that pleased all. In part he said: "The brave and hardy pioneers who drove the savages from his hiding conquered the wilderness and settled this western world, represented two distinct, and, to a certain extent, antagonistic types of civilization—the Puritan and the cavalier. There was no difference in their personal integrity, honesty of purpose or uprightness of character. But the cavalier burned his incense upon the altar of 'State's rights,' while the Puritan worshipped at the shrine of 'federal supremacy.' This was the hitch that disarranged the machinery of our political compact."

"The cavalier learned to trust the Puritan. The Puritan learned to trust the cavalier. Like brave men and true, they submitted their differences to the arbitration of the sword. They offered their lives on the altars of their faith and came out of the awful carnage of battle with the victor's laurels. The cavalier has discovered that a free flag, a free country, and a free school system can breed as noble blood as ever flowed in the veins of a Hapsburg or a Hanover; while the Puritan has learned that he is not the exclusive guardian of any conscience except this one: that he does not, and cannot, monopolize all the wisdom and virtue, all the morality and righteousness

ness that falls to mortals here on earth."

A splendid dinner, prepared by the ladies, was served and all who were present were treated in a hospitable manner. Subsequently Sterling Price Camp held its annual election of officers and the following were elected to serve during the ensuing year: W. H. Bradley, commander; J. H. La Rue, vice-commander; R. G. Harrell, adjutant; R. B. Gutter, quartermaster; F. L. Root, commissary; J. D. Waggoner, surgeon; W. L. Martin, chaplain; W. W. Brooks, vidette.

W. R. Simmons, who was injured by the cars Friday night, died at the county hospital early yesterday morning. An inquest was held yesterday and the coroner's jury brought in a verdict of death from accidentally being run over by the cars. A telegram notifying the boy's mother was sent to Los Angeles and she notified the coroner that it was desired that the remains be shipped to that city for interment.

GOLD DEPOSITS

Said to be Plentiful in the Philippines.

Information Which May Induce the Government to Take Decisive Action.

WASHINGTON, May 11.—Senator Teller has just received a letter from a constituent in Colorado indicating that the Philippine Islands may be found to be very rich in gold deposits. The writer says that in 1876 he traveled from Manila to Singapore with a man who had gone from Montana to the island of Luzon for the purpose of investigating the reports of such wealth, who gave him this information in confidence and as a return for kindness rendered him by the Senator's correspondence.

"The old man," says the writer, "the results of his investigations were far above anything he had anticipated and that the wealth of gold in that country was beyond estimating. He had gone to the Philippines with the intention of going into mining if the situation was promising. When he found they were, he went to the Spanish Governor to secure permission, but this official would permit nothing of the kind. He gave as the reason for his opposition that the development of the mines would tend to enrich and disturb the native population, while the Spanish policy was to keep them in ignorance and subjugation."

The writer of the letter says his companion secured his information from Catholic priests located outside the town.

SOME PIE WANTED

Silver-Republicans Organize a Club.

Demand Recognition From the Big Six—May Spoil the Fusion Program.

Yesterday afternoon a Silver Republican club was organized with an enrollment of over fifty voters on the list of membership. The club met in George A. Nourse's office.

The club was organized by the election of Judge Nourse as president, J. L. Chubbuck, secretary, T. B. Millett, treasurer.

The question of fusion was considered. It seemed the Democrats and Populists have divided the offices and this indicates the silver Republicans. "They want some of the pie and will make a war if the fusionists do not 'recognize' them."

"Oh no, it is not the offices we are after," remarked one of the white metal men after the meeting, "but we want to be recognized." Continuing, he said: "There will in a lively time if we do not receive recognition."

The Democrats are much exercised over the demands of the silver Republicans, as the Populists insist upon keeping all the offices that they secured in the divvy made by the Big Six. This will compel the Democrats to give up at least one office in order to appease the hungry white metal advocates.

Some of the Democrats want to hold fast to what they have and ignore the silver Republicans entirely, while others desire to force the Pops to give up one of their offices.

The difference over who shall make the concession to the third fusion party may result in a big wrangle. At the request of the Demo-Pop combination the silver Republicans appointed a conference committee to meet with the Big Six on next Wednesday afternoon. The committee is composed of Major Parker, Colonel Bonafant and P. H. Millett. The silver Republicans will meet next Saturday to hear the report of their conference committee.

HARD TIMES AT CIENTFUEGOS

How Spanish Patriotism Is Sustained

By Fairy Stories of Victories Not Won.

An Associated Press Correspondent Walks Through the Town and Gives His Impressions.

(Copyrighted by Associated Press.)
 KENTON, Jamaica, May 14.—A correspondent of the Associated Press who passed through the Cienfuegos blockade on the steamer Adula on Tuesday last, succeeded in entering that city and getting a good idea of the situation. He left Cienfuegos on the steamer with a number of refugees on Tuesday last and he sent the following dispatch ashore from the quarantine station:

"When about forty miles off Cienfuegos Monday afternoon we sighted the American blockade squadron consisting of the Marblehead, Nashville and Erie. The blockade, the Marblehead, bore down upon us at full speed and fired a blank shot across our bows. We came to and were boarded by a boat from the Erie. We were permitted from the State Department to pass the blockade for passengers on condition that we carry no cargo and were allowed to proceed.

"The officer of the Marblehead said the blockade thought the Adula was a Spanish troop ship, which is expected daily.

"When about 300 yards from the narrow entrance to the harbor a Spanish twenty-ton gunboat, mounting one quick-firing one-pounder gun, poked her nose out from the mangrove-covered reef and stopped us. Her papers had been seized by the Spanish consul at Kingston and soon we were allowed to enter the harbor.

"The harbor entrance of Cienfuegos is about 250 yards wide and there are forts on either side of it. These forts have long rows of old-fashioned guns and just inside the harbor is a modern fortification building of timber, earth and sand.

SOON SATISFIED.

The British vice-consul, Mr. Fowler, told the correspondent of the Associated Press that the Spaniards have eight or ten modern high power guns mounted on the new works. Their caliber are four to six inches. Inside the harbor were three tiny gunboats. The only warship of consequence in port was the third-class cruiser Galatea. The correspondent counted four guns in her main battery and she had one quick-firing gun.

The Galatea went outside the harbor a few days ago to chase the United States auxiliary gunboat Eagle. Commander Sutherland, a vessel about one-third the Galatea's size. The engagement was short, sharp and decisive. The Galatea's shells were splintered and the Galatea's deck house and the Spanish cruiser quickly retreated into the harbor.

Besides the warships there were two 2000 ton merchant steamers, the Rio Janeiro and the Alava of Bilbao, and three coast steamers. Inside the harbor of Cienfuegos, these vessels were caught in the harbor by the American blockade fleet and will doubtless fall into the hands of our sailors in due course of time.

BLOCKADE PRICES.

Blockade prices for food are charged in Cienfuegos. Flour sells at 25 cents per pound, meat costs forty cents a pound and if you want milk you must pay 40 cents a quart for it. On the other hand bread fruit and plantains are plentiful at five or six cents a pound. The correspondent was told that there was food enough in the city to last forty-five days, still the population is so afraid the blockade will result in starvation. There are at least 30,000 to 40,000 people in Cienfuegos and its vicinity, including about 15,000 regular Spanish troops and 5000 volunteers.

The towns people and the soldiers were talking about a vaguely glorious battle said to have been won by the Spanish forces at Havana.

General Pando left here for Havana on Sunday and heavy fighting took place on Tuesday about thirty-one miles from the city.

The British consul, who was the character of the Adula, has sent to Jamaica his family, several Cuban-Americans, and forty of the best Cuban families in Cienfuegos, in all 287 persons. As the Adula is only provisioned for 130 passengers they were short of rations but nobody grumbled, all being glad to get out of the blockaded city.

The Adula steamed out of the Cienfuegos harbor at 10:30 a. m., at which time the American blockade squadron had been increased by a large fighting ship whose name was not discernible.

Nothing is known here concerning the reported bombardment of Cienfuegos by the United States squadron, but as the squadron was reinforced it is possible that the commander may have felt strong enough to engage the batteries of Cienfuegos.

Shot by a Sentry.

KEY WEST, Fla., May 14.—A rumor was circulated last night to the effect that a Spanish spy had been shot at the fort where the fortifications are being built. Investigation revealed that a built-up colored boy had chased a runaway male into the garden grounds and was challenged by a sentry. The boy failed to answer and was shot. He was probably dead.

A FORTUNATE ESCAPE.

H. F. Jacobson and Family in a Runaway But Not Injured.

H. F. Jacobson and family of West Park had a narrow escape from a serious accident yesterday noon while driving along Tulare street near K. Jacobson's team became frightened at some machinery standing by the road side and ran away. He endeavored to control the animals but was unable to do so. The wagon was upset by the team wheeling suddenly and Mr. and Mrs. Jacobson, their two little girls and a baby were spilled out in a heap. No one was seriously injured fortunately, and after a few moments the only evidence of the runaway was a broken wagon and a dusty baby. The baby did not seem to mind the experience and the parents rejoiced because none of their little ones were injured.

WAS CAUGHT STEALING HAY.

M. Zlocovich Sentenced to Ninety Days for the Act.

M. Zlocovich was sentenced to ninety days in the county jail yesterday by Justice St. John for an attempt to commit petty larceny. Friday night last he was caught stealing a load of hay from the ranch of Delish Sholde, who lives west of town. A night watchman had been stationed on the place to guard against such offenders and Zlocovich walked right into a trap. He was allowed to drive up to the stable yard and load hay, but when the watchman took him in charge. The thief was brought to town and placed in the county jail. Yesterday morning he was taken before Justice St. John for trial and found guilty, receiving a ninety day sentence, which is the full penalty for an attempt to commit petty larceny.

WHEAT OPTIONS.

Leiter Again Saves the Bulls From Loss.

The Figures For May Leave a Wide Margin For Gamblers.

CHICAGO, May 14.—Wheat opened weak. Liverpool reported 24 bushels for May, 24 1/2 for July and 2 1/2 for September. London reported 24 bushels for May, 24 1/2 for July and 2 1/2 for September. Under these figures, May wheat started at a loss of 20 cents a bushel, or at \$1.20, July began at a loss of 2 1/2 cents below yesterday's close, selling at \$1.01 1/2.

The bears regained their nerves and put out short lines with more assurance than has been discernible in the past fortnight. They reckoned without their own power. Through various brokers, Leiter gradually worked off his shorts and shortly before the close the short sellers found themselves pocketed. In their anxiety to even up, July was advanced steadily to \$1.07.

Half an hour before the close a real rising movement set in which could not be stemmed. July went off half at a question, closing at \$1.07. The market was a question of a few cents. A short rally carried it back to \$1.07, closing with a net gain of 1/2 cent. May, with prices 20 cents lower at \$1.00, the price 20 cents being found necessary on a sale of 17,000 bushels. Leiter picked up the offering and on his evident willingness to support the price it was advanced at the close to \$1.07 1/2, showing however a net loss of 1/2 cent.

The heavy receipts of corn and the opening weakness of wheat made it a heavy market for the former at the opening. July closed at a net gain of 1/2 cent. Oats ruled very nervous. July closed with a net loss of 1/2 cent.

PULLING HIS LEG

Nevills Charges Azhderian With the Attempt.

Spy Testimony Given Yesterday in a San Francisco Police Court.

SAN FRANCISCO, May 14.—Elsie Williams, Grace Looze and Myron H. Azhderian were on trial today in Judge Joachimsen's court, charged with extortion. It is alleged by W. A. Nevills, the Fresno witness called by the prosecution, that the three defendants were in the city for the purpose of extorting money from him. The first witness called was Dr. W. H. Nevills, who attended Captain Nevills during his illness. On one of his visits, he testified, he met the defendant Elsie Williams. He later attended her at the hospital and testified that she was very attentive during her illness and that the check for medical attention was signed by Captain Nevills.

Shot by a Sentry.

KEY WEST, Fla., May 14.—A rumor was circulated last night to the effect that a Spanish spy had been shot at the fort where the fortifications are being built. Investigation revealed that a built-up colored boy had chased a runaway male into the garden grounds and was challenged by a sentry. The boy failed to answer and was shot. He was probably dead.

FUTURE POLICY.

What to Do With the Philippines.

The United States Should Retain Them.

Time Coming When We Must Abandon the Non-Interference Policy.

From the Tribune Register.

Topics have for several years stuck to the policy that party divisions would soon be made on a new and paramount issue, that of a broadening national policy as opposed to a continuation of the insular policy. We have heretofore followed and that policy seems likely of immediate fulfillment. The other day in the house at Washington, Bailey at Texas, declared that this country would, when the war is over, relinquish to Spain every foot of territory taken from her except Cuba, because this is a war for humanity and not for aggression. Issue will be joined with Mr. Bailey and his party, for Mr. Bailey undertook to speak for and in the name of the new democracy of this country. There is likely to be some disturbance of party lines on the issue, but issue will be joined nevertheless.

There is no valid reason why Cuba should not be freed from Spanish domination, even that of taxation to our own country that is not equally strong in favor of freeing the Philippine islands, now that we have the opportunity. Cuba is close under the ten of our shoes. The Philippines are far away, but what Cuba has suffered the Philippines have suffered. Cuba has had revolution after revolution. So have the Philippines. Cuba has been pillaged by rapacious Spanish tax collectors and corrupt officials. So have the Philippines. Atrocities such as would have disgraced the sixteenth century have made Cuba a house of mourning. So have they the Philippines. In short, as suggested above, there is no reason for freeing Cuba that is not as valid for freeing the Philippines except that Cuba is near and the Philippines are far. While it was not in our mind to free the Philippines we have practically done so and our California boys are now going to complete the work. Shall we, when it is done, undo the work so bravely accomplished and hand back, unneeded, those millions of Spanish tyrants? Topics think not. Mr. Bailey and the Democratic party to the contrary notwithstanding.

The Pacific ocean will, within fifty years, be the most tremendous arteries of commerce in the history of the world. The Nicaragua canal will have been completed and the commerce of the Orient and Occident will flow through it in two opposing, never ending streams. The world's population is mostly centered in Asia, which will be a beehive of industry. Those tolling millions which know no such thing as labor and rights of man have got to be taught all that we know of human rights and human liberty. If we do not let them they will pull us down, and shall the United States of America shrink its duty? Not so. We cannot escape the rivalries of nations without losing our goal of destruction. If a nation go not forward it will go backward. The world has not forgotten war. It is fighting now and it will fight again, and we will fight again as we are fighting now. Our commerce needs on the Asiatic coast a spacious harbor of refuge and repair. The harbor at Manila will make us such a harbor of refuge that the world scarcely possesses its fellow. Almost land locked, deep, a promontory jutting out on either side and an island 600 feet high in the midst of the mouth than modern engineering can make that harbor. Had not the Spanish soldiers been asleep and the Spanish nation been murdering along to the middle aged Admiral Dewey and his fleet would have gone to keep company with McGinty before it had gotten inside the cove, but as it was he was a mile inside before his approach was discovered. That harbor now has the stars and stripes floating over it. They should never come down.

It does tax one's credulity to believe that Dewey could have taken that harbor and annihilated the Spanish navy without losing a single ship or suffering the death of a man. It seems as though the Spanish ought to have done better with cobble stones. They fought with bravery and some of them went down with colors flying, still fighting but with rage that was ineffectual. Dewey's victory reads like an impossible yarn. 1200 Spanish killed or wounded, ten war vessels destroyed, nine batteries on shore silenced and dismantled, \$5,000,000 worth of property destroyed and a principality taken without the loss of a man or the sustaining of damage to our ships. The result shows the penalty of the failure to keep up with the times, and the penalty is just as certain with men as with navies, with nations as with forts. Spain was outclassed by ships, guns, gunners and men of all grades from commander to powder carrier. There you have it.

READY FOR BUSINESS.

The Fresno-Yukon Gold Dredging Co. to Begin Work.

The Fresno-Yukon Gold Dredging Co. will soon be ready for business. The stock subscriptions now exceed \$20,000, which amount will be called in tomorrow. The company's superintendent is now in San Francisco and work on the dredger will begin at once and pushed rapidly to completion.

Arrangements are being made to have it transported to St. Michaels without delay so that considerable dredging can be done this year. From the best information obtainable it is estimated that from fifteen to twenty millions of dollars will be brought out of the Yukon country this season. W. J. Berry, the father of "Klondike Berry," who is a stockholder in the company, was sent to the Yukon in its interests early in the spring. He sends the most flattering reports of the new discoveries that are being made there and predicts that the Shewan dredger will be a great success in that it will be able to reach and raise the gold from the bedrock of the Yukon river which it is impossible for the ordinary prospector to do.

It will require two shifts of nine persons each to operate the machine for twenty-four hours.

So far but three persons have been selected to accompany it. W. A. Shahan will be superintendent. W. A. Eden will be one of the managing directors, and another will be selected by Arkansas stockholders.

SEEMED INSENSIBLE TO PAIN.

A Needle Jabbed Into a Lunatic Without Any Effect.

The man supposed to be J. Johnson, who was arrested for insanity the other day, was taken to Stockton yesterday for commitment in the hospital for the insane. The case of Johnson is peculiar. He has not spoken a word since his arrest and seems insensible to pain. He has refused to move any part of his body, and when the examining physicians stuck a sharp needle into the soles of his feet he never flinched nor drew back his foot, but grinned innocently.

He has not even once shown his confinement in jail, and when he reaches the asylum he will be fed by means of a tube used especially for administering nourishment to patients who do not consider eating necessary.

What Dr. A. E. Salter Says.

RUFFALO, N. Y.—Gentle:—From my personal knowledge, gained in observing the effect of your Shiloh's Cure in cases of advanced Consumption, I am prepared to say it is the most remarkable remedy that has ever been brought to my attention. It has certainly saved many from Consumption.

Shiloh's Consumption Cure cures where others fail. It is the leading Cough Cure, and no house should be without it. Pleasant to take and goes right to the spot.

For Constipation take Karl's Clover Root Tea, the great Blood Purifier. Cures Headache, Nervousness, Eruptions on the face, and makes the head clear as a bell.

Stop that cough! Take warning. It may lead to Consumption. A 25c bottle of Shiloh's Cure may save your life.

Karl's Clover Root Tea, for Constipation it's the best and if after using it you don't say so, return the package and get your money.

Catarrh Cure. A clear head and sweet breath secured with Shiloh's Catarrh Remedy; sold on a guarantee. Nasal injector free. Sold by Webster Bros., druggists, cor. Mariposa and K streets.

The human machine starts but once and stops but once. You can keep it running longest and most regularly by using DeWitt's Kidney and Bladder Pills. The famous little pills for constipation and all stomach and liver troubles. Dr. C. Padlock, druggist, 1720 Mariposa street.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Cough, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakland, Ky., says: "I have used Chamberlain's Cough, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for croup in the stomach and bowels. For sale by Smith Bros., corner Hughes hotel."

"One Minute Cough Cure is the best preparation I have ever used or used and can't say enough in its praise." Mr. J. M. Bennett, Merchant, Oakdale, Cal. Dr. C. Padlock, druggist, 1720 Mariposa street.

THEIR LAST DAY

Close of the Federation Meeting.

Election of Officers Yesterday Forenoon.

The Federation Will Work for Legislation to Create a Traveling Library.

The three days' session of the Federation of Women's Clubs closed yesterday afternoon after a most successful meeting. The Federation was devoted to the transaction of the usual convention business—the reading of the reports of officers, committees, etc. It was decided to establish a bureau of reciprocity and the women resolved to work as a federation for the passage of a bill at the next legislature to have a portion of the State library made an extensive traveling library.

The committee on resolutions reported the following, which were unanimously passed:

"Resolved, That the most hearty thanks and appreciation of this body be returned to the Women's Club of Fresno for the well planned and cordial welcome accorded to the visiting presidents, delegates and club members; for the daily luncheon so beautifully served on Thursday at the Hughes hotel; for the exquisite decorations, the interesting reception, the Polynesian and Apollo clubs, Mrs. Benson and Mrs. Gundalinger charmed their hearers with most delightful music, and Miss Boyd amused them with her inimitable dialect reading, and for the hearty and unanimous good will shown by all strangers attending the meeting.

"Resolved, That this body tender its thanks to the Hundred Thousand Club of Fresno for the delightful ride through one of Fresno's most fertile districts, and also to Dr. and Mrs. Ehlmann and their daughter, Miss Ehlmann, for the entertainment at their beautiful home, the Alhambra vineyard, enabling those who were so fortunate as to avail themselves of this opportunity to take away with them a remembrance that will be a source of delight as long as memory lasts.

"Resolved, That this body hereby tender its thanks to E. B. F. Edwards of Fresno, Dr. M. H. Stevens of Hanford and Rev. Geo. A. Miller of Hanford, who so bravely and ably assisted in the program of these meetings.

(Signed)
S. C. CARR, Chairman,
"MRS. C. C. STOCKTON,
"MRS. E. A. NAY,
"MRS. A. HARRIS.

The organization was christened "The San Joaquin Valley Federation of Women's Clubs."

The following named were elected as officers for the coming year: President, Mrs. Emma Fox of Lemore; vice-president, Miss Hatch of Fresno; corresponding secretary, Mrs. C. A. Dodge of Hanford; recording secretary, Mrs. Felton of Hanford; treasurer, Mrs. W. Cross of Visalia.

Miss Downing of Tulare, accompanied by Miss Moore, sang delightfully, after which Mrs. Irene Thelin, in a well-prepared paper, considered "The Economic Value of the Kindergarten to the Public School." City Superintendent M. K. Dailey spoke in favor of the kindergarten, but County Superintendent Kirk was opposed to the appropriation of any school money to the kindergarten, as the primary and grammar grades needed it, all he said.

Mrs. A. B. Gallun gave some advice on "How to Guard Youth Against Pernicious Literature."

A duet was played by two members of the Madison Club, after which Miss Margaret Wagon spoke on "The Educational Value of Applied Arts." A song by Miss Wright and a paper by Mrs. Jeannette S. Bryan, and read by Miss Carr, concluded the program.

BANANAS.

Are They Good to Eat Uncooked?

Sarah Tyson Rorer, the famous food expert, answered this question. "No, except in the countries where they grow."

Some are asked, "What about Cereal Cakes?"

"Many of them are coffee and very poor coffee at that, do not be deceived by them. If it is a true cereal coffee it is an excellent food drink." Mrs. Rorer herself uses Postum because she knows it to be the original, pure Cereal Coffee, that is so widely and grossly imitated by adulterated coffee mixtures.

Stockton's Team. The Fate of the Gilt Edges Awaits Them.

A Rattling Ball Game is Promised This Afternoon at Athletic Park.

The ball game between the Fresno Athletics and the Stockton Athletics at Athletic Park this afternoon will be an interesting contest and will draw out a large crowd, as everybody wants to see the Fresno in action since they defeated the Gilt Edges at Sacramento a week ago.

Stockton has a fine team, the pick of the disbanded Pacific States league. It is no walkover for the local boys by any means. The game will be of the class that pleases the people who desire a run for their money.

The following is the line-up for the game: Stockton. Pitcher. Thomas. Catcher. Mangerlin. First base. Held. Second base. Early. Third base. Moore. Short stop. Courtney. Left field. Ferguson. Center field. McCue. Right field. Brittain. Extra. Tawney.

WE HAVE STRUCK THE PACE. Just watch us hit the ball. Those slacks, boys, are imparted direct from Panama. The report that they are infected with yellow fever is erroneous, as they were fumigated at the last game in Sacramento.

Percy Field is setting us again. He packed a bundle around the streets yesterday afternoon containing his batting averages when he played in the Red Cross League in Keweenaw, Texas. Four assorted hits were picked out for this game.

Left fielder Ferguson is making improvements in his work. "Percy" trains like a Turkish wrestler, eats nothing but breakfast fare, takes a "long draw" after meals and goes to bed.

"Cooly" Billings has been in Fresno before. He plays ball to win always.

Billings has been appointed permanent agricultural commissioner and general grafter at the park. He has named as his staff of pruners Courtney, Thomas and Brittain.

McCue has arrived from Albuquerque. He has shown splendid form in practice and will play center field tomorrow. He comes recommended by Moore.

"Big" Stockton and "Nick" Smith are a pair from Selma and have been coaching Mangerlin for another three-bagger at a critical time in the game, which is wrong, as such hits to the bat batter are hard to get when a game hangs on the thread.

Percy, the extra man from Stockton, is a direct descendant of the "Frig" Islanders. He is a catcher by birth.

The boys have set the time lock for the sixth inning and the explosion will occur immediately after Ferguson gets a two-bagger.

Thomas has got the fad and named one of his wives the "Dewey" shoot. A torpedo chaser in the navy to what is in store for the Sloughs.

Sam Ferguson is umpire extraordinary now. He received his commission several days ago. Sam can judge anything from a ball game to a hot female. His record in linear Valley made him many friends.

The boys had their pictures taken yesterday. The suits showed up like a yellow dragon at a Chinese funeral.

A Local Bombardment. While all eyes are turned towards the movements of our several fleets in the Atlantic and Pacific, praising the heroic deeds already accomplished and waiting for others about to happen, and while some of the big guns of America's great fighting machines have been tearing great breaches in the solid but antiquated fortifications of Spain's colonial empire, there has been in quiet preparation by Fresno's most reliable firm a no less effective bombardment to commence on Monday next.

We have only to refer our readers to the plain but highly interesting two-column announcement of Louis E. Einstein & Co. in this issue, and all will agree with us, that it means a cannonade of low prices, under the effect of which great piles of splendid goods will disappear from their shelves and count as if by magic.

It is an event in Fresno's trade circle, this great purchase of now and desirable wares at such an immense reduction and it will be fully appreciated by the female portion of the community and surrounding country; no further comment is necessary as the very name of the firm is a sufficient guarantee that the promise made will be carried out to the letter; as on former occasions, not one of the many hundreds of ladies ever regretted to attend and profit by Louis Einstein & Co.'s leading sales.

For Over Fifty Years Mrs. Winslow's SOOTHING SYRUP has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

A Spanish Spy Captured in Fresno!
Yesterday about nineteen minutes past two in the afternoon, a suspicious looking individual, apparently Spanish, was observed on the top of the Kutter-Goldstein building on I street with a spyglass and a notebook. The Spaniard, as he afterwards proved to be, was intensely scrutinizing the brick foundations of the new furniture warehouse being erected for the Kutter-Goldstein store, and which that ready instinct which has made him the Furniture King of the San Joaquin valley, grasped the situation in a flash.

Quickly detailing Kennedy as chief of staff and Williams as adjutant-general, Lyon threw out a skirmish line and made a flank movement on the roof, capturing the Spanish spy without shedding a drop of blood.

The Spaniard endeavored to swallow country memoranda of drawings, etc., when captured, but on being taken into the furniture store, the sight of the immense and elegant stock so stored him, and he instantly opened his mouth and confessed the plans.

On being searched, a through ticket to Los Angeles was found and enough corroborative evidence was secured to make a special agent of the Spanish government determined to study the land fortifications and make approaches to Fresno.

On the night of the War Department, a line of the War Department was notified, and the price of a new line of a \$45 easy chair was raised to \$50.

He is harmless and harmless, sent over from Ed. Thompson's store. He is feared government contemplated the rain district to protect the market for Span-

and patriotic bravery of the Lyon Co. prevented all reward this company the steady patronage of buyers in the rain dis-
